

Off-Road Elite

Strong construction and off-road suspension set this RV up for your free-camping adventures

Sometimes it can be hard to please all your wants and needs in a new RV purchase. Traditionally, touring in a luxury van has meant sacrificing off-road ability. Likewise, touring in an off-road focussed RV has, in the past, meant you lived out of a bare-bones style set-up.

Elite Caravans is well known for its luxury finishes. Utilising modern décor and long lists of inclusions, its

RVs have won over many fans. The Goulburn Off-Roader is a welcome addition to the range, and has managed to combine Elite's luxury heritage with a genuine, off-road focussed chassis, frame, tyre and suspension package.

The end result in this collaboration has been an RV that offers you all of life's little luxuries, yet can still make it to your favourite free-camping spots without any problems.

The Goulburn Off-Roader offers plenty of ground clearance, and is a great match to a larger 4WD tow vehicle. While there's plenty of room inside, it measures at only 17.5ft in length, which makes it highly manoeuvrable compared to other large vans. Great for getting into those tight free-camping sites!

EXTERNAL FEATURES

FRAME CONSTRUCTION: Meranti

OUTER SKIN: Aluminium

INSULATION: 19mm polystyrene

WATER TANKS: Two 95L

TYRES: 16in Cooper 265/75 R16

AWNING: Aussie traveller

BOOT: Dual access tunnel

GAS CYLINDERS: 9kg

HOT WATER: Suburban 23L

GENERATOR: Optional

The dinette is finished in leather to provide plenty of comfort to relax in after a long day of travel. Large storage drawers are located underneath the seats so you've got some space to store your table decorations or other cooking equipment and the table is large enough to accommodate a family, yet isn't so large that it will get in the way of your seating area.

To ensure the Goulburn Off-Roader can really live up to its name off-road, Elite Caravans has equipped it with Cooper Discoverer STT tyres. These units are synonymous with the off-roading community, and really help when you're looking to explore off-road.

INTERNAL FEATURES

FRIDGE: Dometic RM 2555 AES 157L
SINK AND COOKING: Stainless deep sink and runoff, Swift fan-forced oven and gas/electric four-burner stove
LIGHTING: LED downlights
ENTERTAINMENT: Flat-screen TV, CD/DVD player
SMOKE ALARM AND FIRE EXTINGUISHER: Yes
CABINERY: Choice of colours
LOUNGE: L-shape
BERTHS: Two
MAIN BED: Queen size
SLEEPING CONFIGURATION: Island bed
PRIVACY DOOR: Sliding
BATHROOM CONFIGURATION: Toilet, shower, vanity
SHOWER HEAD: Rosette
TOILET: Thetford swivel

A Thetford toilet, along with a vanity basin and shower, make up the en suite. Constructed with a high level of finish, you won't have to worry about having a place to clean off after a long day of adventuring again.

Windows are featured right throughout the Goulburn Off-Roader to ensure you can take stock of the views at your campsites. They're also great during summer, when a little extra ventilation can go a long way. A television is mounted on a flexi-mount system to keep you entertained once the sun goes down.

The kitchen is well appointed and ready to cater for even the biggest feasts. A four-burner stove and Swift fan-forced oven take care of your cooking requirements while marble-styled bench tops are easy to keep clean and look great too. The timber finish cabinetry is available in a range of colours depending on what you're looking for, and helps the fridge to really blend in.

The queen bed that's on offer is more than adequate to sleep two on even the longest of trips, offering all the comforts of home. Plenty of cabinetry surrounds the bedhead to ensure you never want for space to store your clothes, and a hatch is located above the bed for winter sunlight and summer breezes.

RV PROFILE

ELITE CARAVANS GOULBURN OFF-ROADER

Cruisemaster coil suspension is a major feature of the Goulburn Off-Roader. It dramatically increases its off-road ability by allowing increased articulation and also offers a smooth ride when you're towing on tar. Common in heavy-duty off-road trailer builds, the system is strong enough to take on anything you can throw at it.

A rear bar is included on the Goulburn Off-Road. This is a great protective measure, and ensures you don't have to worry about damaging the rear of your van on steep departures. A spare tyre is mounted to the bar for heavy off-road use and LED lighting completes a low maintenance and practical rear end.

From the outset, the Goulburn Off-Roader was designed to be truly capable off-road, and take on the dirt tracks that are often required to get to some of Australia's most picturesque free-camping locations. A Hyland hitch allows it to articulate freely from your tow vehicle for maximum off-road ability.

SAVE \$2000!
